

KIMCARE* Foam Cassette Soap Dispenser - Code 6983 is Key Lockable

- Please note, included with the Foam Cassette soap dispenser, code 6983, there is a white plastic locking plate & a metal key.
- The plastic plate simply slides in over the push button (that opens the dispenser) on the base of the dispenser, thus making it key lockable. This feature is only available on the "**foam**" AQUA style dispenser.
